

I need a laptop that can:

- ☐ Edit vacation video
- ☐ Download latest Korn
- ☐ Email photo to John, Eric, Todd, Luke, Brad, Dave and Kevin
- ☐ All of the above

The AMD Turion 64 is powerful, tireless, and loves to travel. Lorem ipsum dolor sit amet, consectetur adipiscing elit. leo uie all quam pulvinar.

I need my computer to:

- ☐ Edit 2,500 hours of baby videos
- ☐ Order 9,000 diapers
- ☐ Research vasectomies
- ☒ All of the above

Welcome to the new AMD

SMARTER CHOICE

Ajay Marathe
Corporate VP & President AMD India

AMD
Smarter choice.

Smarter choice. AMD

Works longer.
It's practical
and sexy, just like you, right?

The smarter choice for power in a thin notebook. Lorem ipsum dolor sit amet, consectetur adipiscing elit. leo uie all quam pulvinar. Lorem ipsum dolor sit amet, consectetur adipiscing elit. leo uie all quam pulvinar. Lorem ipsum dolor sit amet, consectetur adipiscing elit. leo uie all quam pulvinar.

AMD
Smarter choice.

Smarter choice.

AMD
Smarter choice.

AMD and Soudara Fernan

AMD Opteron-based systems have a smaller footprint than x86-based technology. And because they take up less space, they also generate less heat. Unless, of course, you happen to work for Intel. To find out how you can save your company thousands of dollars in power costs and still get unsurpassed dual core performance, visit amd.com. Because the more you know, the more you can know. amd.com

AMD in a glimpse

Headquarters:
Sunnyvale, California

Employees:
10,246 worldwide

FORTUNE magazine ranks **AMD** as a

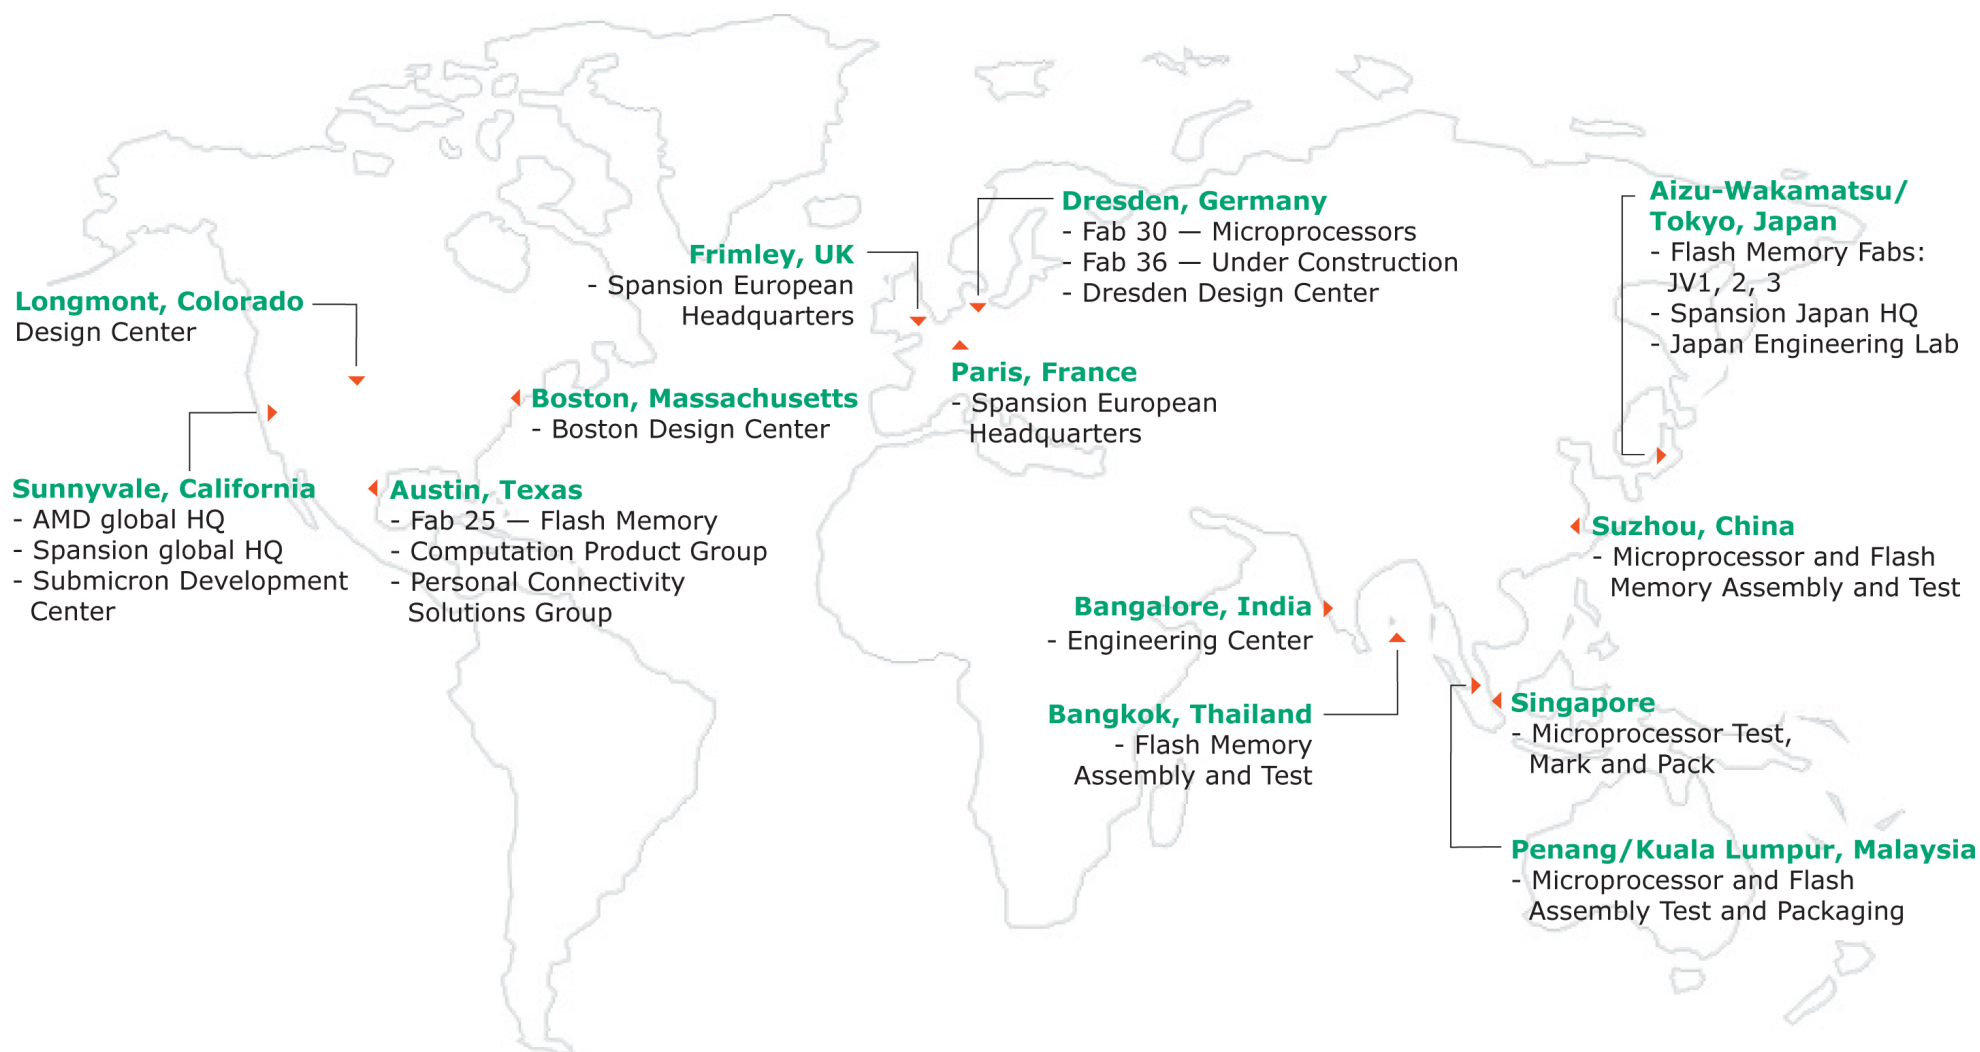

TOP 10 Most Admired Company for Innovation

as well as the **NUMBER ONE**

Most Admired Company in the semiconductor industry

for Innovation and Quality of Products/Services

AMD worldwide operations

The background of the slide features three overlapping, semi-transparent globes with a light green tint and a white grid of latitude and longitude lines. The globes are positioned diagonally across the frame, creating a sense of global connectivity.

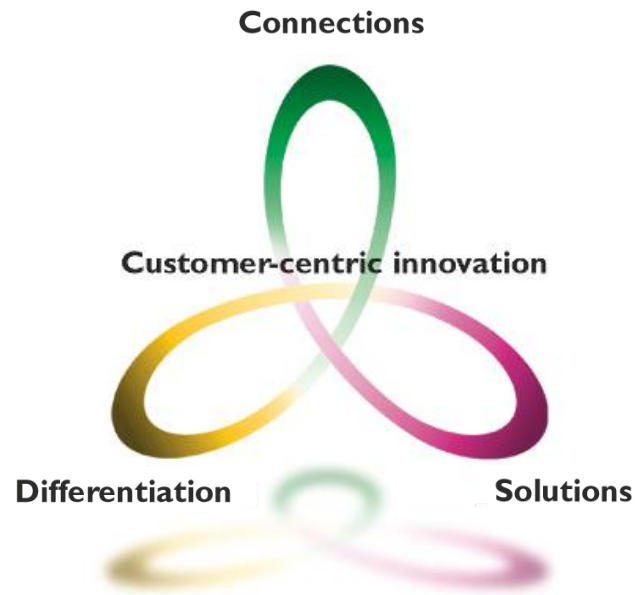

**A world where the amazing power
of AMD technology improves the quality
of people's lives**

The background of the slide features three overlapping, semi-transparent globes with a grid of latitude and longitude lines. The globes are rendered in a light green color, matching the overall theme of the slide. The text is centered over the middle globe.

**Lead through innovative,
customer-centric solutions that empower
businesses, enhance the digital lifestyle
and bridge the digital divide.**

Connect 50 percent of
World's population by the
year 2015, using
innovative internet and
computing technologies.

Customers are at the center of everything we do.

AMD's Innovative Approach...

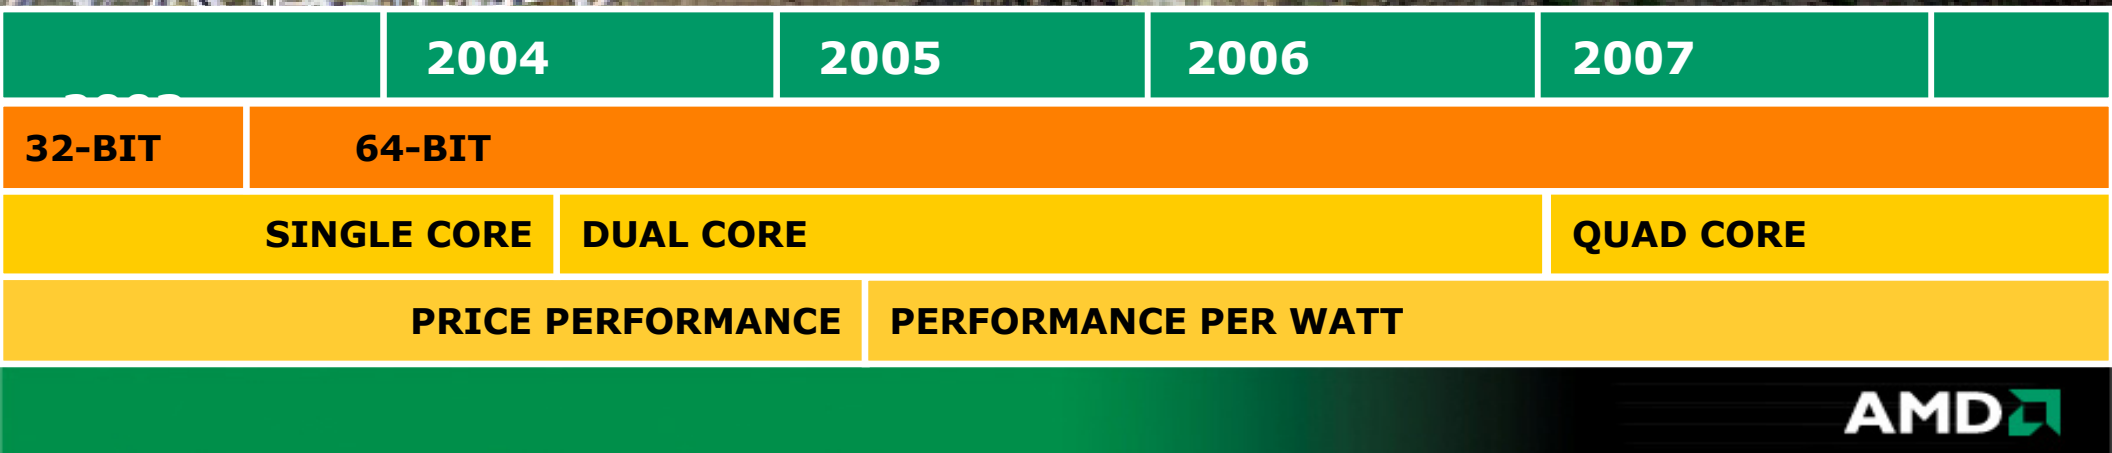

From Best Technologies to Best Solutions

- Leading the way to seamless and non-disruptive 64-bit future with AMD64 technology
- Manufacturing excellence to compliment the latest technologies
- Leading through technology, all the way...
 - From Sub-1 watt processor for the handhelds
 - To the powerful Opteron processor for HPC clusters
 - And Turion 64 – the best mobile performance

Successful Technology Transitions

- Non-disruptive technology
- Graceful transitions
- Customer-centric vs. vendor-centric

A day in the life of Innovation

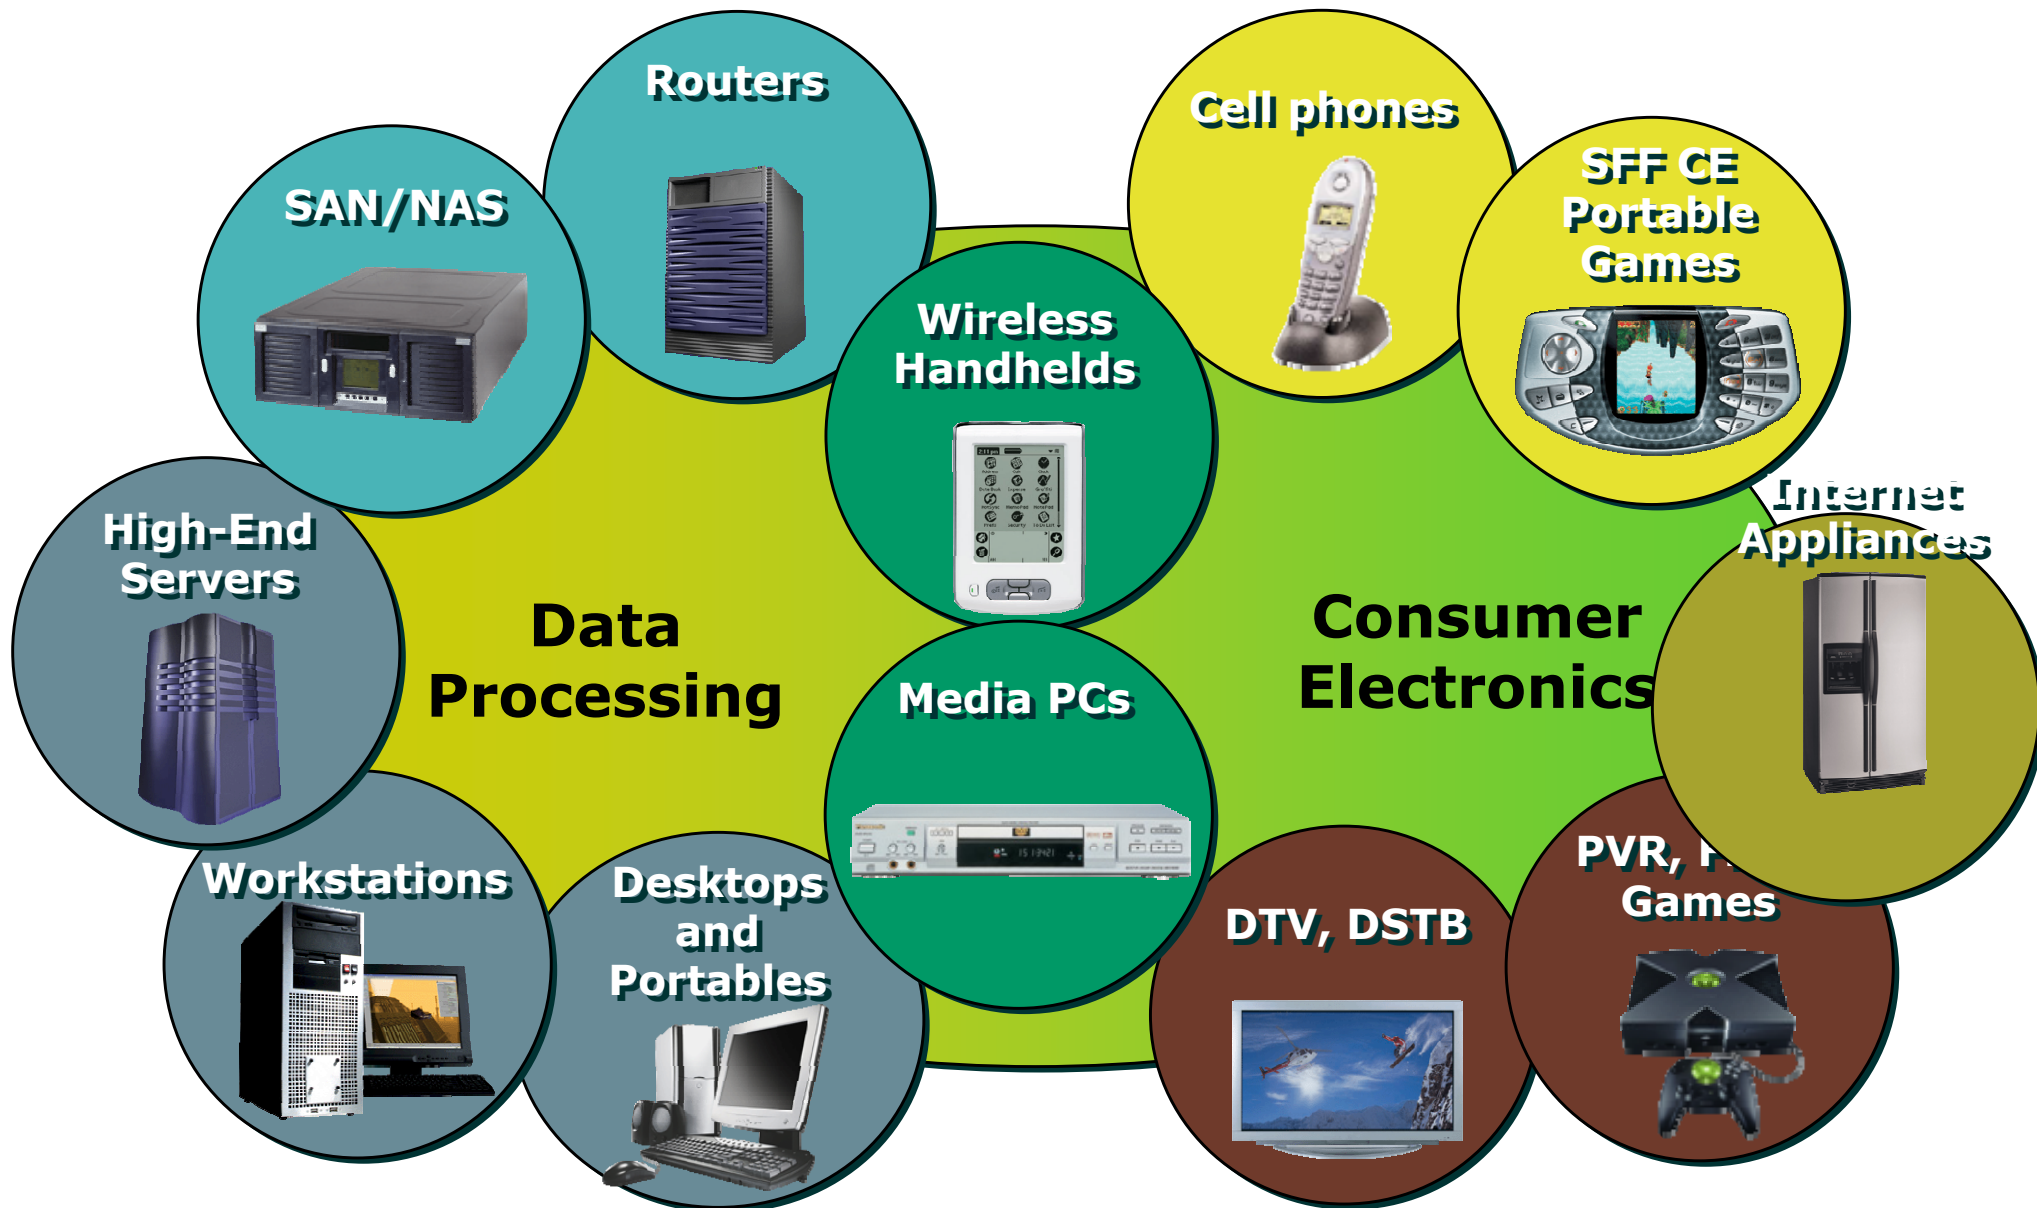

Redefining Server Dynamics

- 4-way market reinvigorated by AMD
- Shifting price/performance ratio
- Industry standards
- More affordable, scaleable, manageable technology
- Results in better solutions with lower TCO

- Industry is crossing the chasm
 - From meaningless '*need for speed*' to true customer centric innovation
- Real innovation, based on real customer needs
 - AMD is leading the way to providing the most appropriate technology solutions
- Role of high-growth markets
 - India is helping define the changing technology landscape

x86 Everywhere:The Industry Standard

AMD and Developers

Partners in Development

- Partners in revolutionizing the industry
- Our guiding light to help us out-innovate our competition
- India's developers, just like AMD, have increasing global influence
- Developers continue to be vocal advocates for AMD
- Your success is our success
- AMD's policy on openness and standards – Break Free!

Thank You
